

# BEST SURVIVAL KNIVES OF THE BLADE SHOW

THE BEST BUSHCRAFT & SURVIVAL KNIVES  
AT THE WORLD'S LARGEST KNIFE SHOW

by Joe Kertzman

With preparedness, survival and living ready at the forefront of the minds of individuals in any number of circles, it came as no surprise that bushcraft and survival knives were a hot category at the BLADE Show in Atlanta, Georgia, this past spring. For those unfamiliar, the BLADE Show ([bladeshow.com](http://bladeshow.com)) lives up to its billing as the "World's Largest Knife Show," with nearly every major knife manufacturer on the planet exhibiting annually, as well as hundreds of handmade knifemakers, dealers, collectors and purveyors.

It was a pleasure doing the footwork for *Living Ready* readers, visiting knife companies and choosing the best bushcraft and survival models from a wide range of knives. Following are what rose to the top as far as value, quality and practicality. For more on bushcraft and survival knives, visit [blademag.com](http://blademag.com), or join the discussion forums at [knifeforums.com](http://knifeforums.com).
